

## Key

### Tropical fish shop

Tropical fish shops are better personalized towards fish keeping than general pet stores.

### Petco & Petsmart

Petco and Petsmart are a good source for feed and basic aquarium needs.

## Kearny Mesa

# Aquascaping Yelp Reviews

Aquascaping has been popular over the years because hobbyist are looking for ways to emulate a natural underwater habitat in their home. We can describe Aquascaping as underwater gardening. Aquascaping basics are live plants and live fishes in an aquarium.

To maintain a natural habitat in an aquarium is not easy. Plants must be fed just as pet fishes do too. Plants need lighting for photosynthesis, carbon dioxide air pump for breathing, and the right temperature for them to thrive.

## Petzone

Very helpful and knowledgeable staff, great diversity of fish, and some beautiful tanks to look at and get some ideas from! I would 100% recommended coming here over going to any big brand store even if it is a bit of a drive from wherever you are at.

Dylan H.

## Pet Kingdom

Best family pet store for reptiles ever! We got a baby Greek Hermann tortoise for our 7 year olds birthday and they were so helpful and carry everything you can imagine. Love to be able to get everything local. Highly recommend.

Laura Y.

## Aquatic Warehouse

WoW, They have an incredible warehouse, the seawater displays are incredible. The staff was very knowledgeable to help set us up on our first seawater aquarium. Highly recommend for you newbies like us or you old-time seawater aquarium takers. Great inventory.

Joey D.

## Vets Pets

I shop here for fish and fish supplies. Chris and his team are great. They really care about the quality and health of the fish. They are honest and strive to sell quality products. They are very knowledgeable and always helpful.

Brian M.

## SD Reef Shop

Left this place with a nice amount of corals, came here and snagged some frags. James was very patient and helpful, I am definitely coming back here. Large selection of SPS corals and a good amount of LPS corals.

Pierre T.

## Aquarium Fish Depot

AFD is... Exclusively fresh water tropical fish and supplies, AFD probably has the fish you are looking for. There are common and rare species here and the owner has extensive experience in breeding many tropical fish. The four stars is because they are still settling in and setting the store up and I anticipate they will get that fifth star when they are fully set up.

John C.

## Coast Gem USA

An amazing collection of betta fish! Wow, I was so amazed with their giant koi betta! I was also amazed with their variety of freshwater fish like the Flowerhorn. I was promptly greeted by Rudy who was very knowledgeable of his freshwater fish and tank setup techniques. I was educated for my next tank setup and felt confident in my next purchase. Great customer service! This is my store from now on. It's amazing!

Bryan P.

## Tropical Fish Stop

My daughter wanted a pet fish so we took her here for one. They have a lot of options to choose from and the price was cheap. We will definitely be coming back.

Vinh P.

## Petco. Sports Arena

I had bought a couple fish from this location and had a problem with one of my guys. Was not looking forward to going back to the store about it, but manager Beth was very helpful and understanding. I care about my animals and I feel like this Petco treats, not just their animals, but their customers, with respect and compassion :-)

Norm S.

## 7 Essentials for your Fish Tank

- Water Conditioner for Fish. Having the right bacteria in the aquarium water is important for life to thrive.
- Fish Aquarium Test Strips.
- Water Filter.
- Aquarium Heater.
- Air Pump.
- Substrate.
- Lighting.
